

#StayHomeHack is a fully remote hackathon helping our society stay connected, productive and healthy

Hundreds of experts from around the world are discovering important problems, sharing resources and finding solutions together. Join us at stayhomehack.com

**PROJECT**

Superheroes

Superheroes enables virtual connections and meaningful conversations by allowing anyone to be a hero for others as well as to find one for themselves. We aim to uplift the spirit of job seekers by facilitating virtual meetings and events where anyone can learn from others, and have the opportunity to connect with someone on one-on-one to exchange advice and share experiences.

HOW YOU CAN HELP

- 1 Assistance with front-end and back-end development
2. Connections to potential mentors and job seekers who are willing to be a part of our community on the app
3. Advice on go-to market strategy

**MEET THE TEAM****Annie Stein**

I'm an accountant/UX designer at EY that uses business logic to design creative and impactful solutions. I joined #SHH because I wanted to contribute to helping solve a problem that was affecting many people's lives and meet other like-minded people at the same time.

**Cindy Chan**

As a digital marketer and a UX Designer, I'm passionate to make people's lives better through the power of designing with purpose, working across a variety of industries. It has led me to find #SHH, a community of talented people, where we can challenge different complex problems head-on. #SHH has been a great learning experience for me to grow in becoming a better problem solver and designer.

**Clelie Collas**

Six months ago, I decided to change my life. I was an accomplished digital Marketer in France, now the happiest Sydney sider diving onto the User Experience Design space - quite a ride! And, what's more exciting to have a taste of this new life other than participating in #StayHomeHack? You are all brilliant minds, and I am excited to be with you, here on this essential initiative.

**Debasmita Mukherjee**

I am a business analyst and passionate about UX. I joined #SHH as it provided a wonderful way to connect with others and learn new things.

**MEET THE TEAM****Harshitha Rajashekara**

I'm a product manager and agile project manager worked in Startups, Government and Corporate sectors. I think like a Human Centric Designer to understand a problem. I am passionate about solving complex problems. I joined #SSH because to help the society during tough times, and I enjoy working with talented people.

**Lillian Luzinsky**

I'm a user-centric, front-end web developer with a background in graphic design and a passion for working collaboratively. I enjoy using CSS and ReactJS to design responsive web pages and apps. I love injecting positive energy into any team I have the opportunity to work with and I thrive on learning from people with different skill sets. I am keen to become a better problem solver and am constantly striving to improve my programming skills.

**Polly Au**

With a design background, I believe I can make the world to become a better place through design. I joined #SHH to meet new people and uncover skills that I never knew I had. I am passionate about providing a delightful experience in the world's most wicked problems.

**Yu-ching Lee**

I'm a UX designer, researcher and ex-pastry chef, looking to solve big problems in a meaningful way. I joined #SHH because I wanted to collaborate with and learn from others, have a bit of fun and solve a bunch of problems in the process!
